Disc Dogs!

THE COMPLETE GUIDE

Dogs naturally love to run, chase, and grab things with their mouths. For a canine, no activity is more healthy or satisfying than chasing and catching a flying disc. And, the best news of all is that almost any dog can participate in the fun!

In the backyard or at a nearby park, pet owners worldwide are discovering that ten minutes of canine disc play is more fun and better exercise for a canine than an hour-long walk.

In *Disc Dogs! The Complete Guide*, authors Peter Bloeme and Jeff Perry, the world's foremost experts in canine disc sports, share the tips, techniques, and training methods that made them World Champions. This information-packed resource also features an insider's look at the exciting and rewarding world of canine disc competition.

In whatever form you choose to enjoy it, canine disc play is not only fun for your dog, it also provides mental and physical challenges that will help your pet feel that it is living a full and productive life.

The shared activity of canine disc play creates and fosters a special bond of friendship and mutual respect that will take your relationship with your pet to an entirely new level.

Dogs need trees too!

Disc Dogs!

THE COMPLETE GUIDE

BY WORLD CHAMPIONS

PETER BLOEME & JEFF PERRY

Reviews:

Bloeme and Perry bring an amazing amount of experience to this project. They've done it all, with a combined total of more than 50 years of experience including both human and canine disc sports. In that time, they have travelled throughout the world, competing, teaching, and promoting canine disc sports. "Disc Dogs! The Complete Guide" is a must for anyone interested in the sport, from those just starting out to those who are preparing for championship play. — Dan "Stork" Roddick, Former Director of the International Frisbee Association (IFA), Former President of the World Flying Disc Federation (WFDF)

Whether you're a seasoned competitor or just beginning your own fascinating journey in disc dog sports, you will enjoy and benefit from the information you find in these pages. If this book had been available when I started tossing plastic to my dogs, it would not have taken eight years to qualify for my first World Championship and it may not have taken another nine years after that to finally win a World Championship! — Chuck Middleton, 2002 Skyhoundz World Canine Disc Champion, Open and Sport Divisions, Skyhoundz Lifetime Achievement Award Recipient

The first time the book touched my hands there was no reading involved, it was front to back just enjoying the images alone. High speed action photography is not a simple matter, yet this book is loaded with a very nice collection of images. Couple that with their talent for communicating their experience and knowledge and you end up with a disc dog book that is in a league all by itself. It's another standing ovation for Peter Bloeme & Jeff Perry. — Jeff Hoot, Director, The Quadruped

The structure and thoroughness of the book are without equal, but I would buy "Disc Dogs!" for the photos alone. — Paul West, Four-Time Skyhoundz World Finalist

Finally! A comprehensive book about canine disc sports. "Disc Dogs! The Complete Guide" is jam-packed with information for the canine disc enthusiast. If only this book had been available when I started out in the sport. It answers many of the questions I had as a novice. Even now as an experienced competitor, I found the chapter on competition, with its gems of wisdom about disc management, music selection, and throwing in the wind, particularly helpful. This book is a "must have" for anyone starting out in the sport of canine disc, and a good reference book for any disc dogger's library. — Jackie Parkin, Two-Time Skyhoundz World Finalist

If disc dogging were a university course then "Disc Dogs!" would be the textbook. From initiation to graduation this book has something for everyone. Even advanced teams will find new tricks and useful tips to improve their throws and consistency. I had to run out and try a few! I particularly enjoyed the stories and photos of teams past and present. They helped to add insight into how the sport has evolved. — Dennis Alexander, Four-Time Skyhoundz World Finalist
